A Brief History of the Central New York Aquarium Society, Inc.

In 1975 Dave Gerber, owner of Mini Pet World Pet Shop located on Erie Blvd East, got a group of tropical fish hobbyists together at his store to discuss the possibility of having an aquarium society in the central NY area. The group was very enthusiastic to see this happen. So in September 1976, the first organized meeting of the Central New York Aquarium Society took place in the basement of the Lincoln First Bank on Genesee Street in Dewitt NY.

The club publication, called the *Central New York Aquarium Society Bulletin*, debuted in September 1976 and one year later was renamed *The Reflector*.

After a few years the membership had increased, and the small basement room was not large enough to accommodate everyone comfortably. A new location was found at the Liverpool Public Library in Liverpool, NY and that was the CNYAS home for many years. During the stay at the library our members maintained two fish tanks for the enjoyment of the library patrons. Renovations at the library made it necessary for CNYAS to move its monthly meetings once again.

In 2008 the members began meeting at the Dewitt Community Center in East Syracuse.

CNYAS is a non-profit organization under section 501(c)(3) of the Internal Revenue Code. It first applied and received this designation along with tax exempt status in 1977. Recertification occurred in 2011.

In 1987 the organization was incorporated, and its non-profit tax status was amended to reflect the incorporation in 2010. The official name is Central New York Aquarium Society, Inc.

GENERAL RULES

RAFFLE

At most monthly meetings a raffle is held of an item related to the tropical fish hobby. Tickets are \$1 each or 6/\$5 and are on sale at break time.

MONTHLY AUCTION

We also have an auction at every general meeting. This gives everyone a chance to buy supplies and fish or to see something they have on hand. Everyone can bid on an item as many times as they want. The person who offers the highest price then pays the treasurer.

If you wish to sell something at the auction, you collect the proceeds from the treasurer by the next meeting; 25% (members) 30% (non-members) of the amount is kept for the benefit of the society. Be sure to wrap the fish securely and in bags with plenty of air. Auction forms should be obtained from the Treasurer prior to the auction. Mark all information about the fish on the outside of the item and be careful of temperature changes. Any items associated with the aquarium hobby may be entered. All mechanical devices must be labeled if they have any defects.

Items raffled might be aquarium pumps, heaters, filters, plants, fish, live food cultures, aquariums, books, etc. Donations are always welcome and will be indicated by the auctioneer.

BOWL SHOW **(Revised 2022)**

The primary purpose of the bowl show is educational. It enables members to see and examine different species of fish, it familiarizes members as to judging procedures, and it encourages the showing and keeping of fish.

1. The Bowl Show Chairman shall have complete charge of all entries. Any unusual requirements or exceptions or questions about these rules must be discussed with the chairperson. The decision of the chairperson is FINAL.
2. All entries shall be in containers having at least 2 flat sides with an unlighted cover (a clear plastic or glass cover is desirable). The use of airstones will not be permitted.
3. All containers must be devoid of contents, except for water and fish. Except for foils, a solid-colored background will be allowed.
4. There will be two classes: the Fish of the Month class, and an Open class.
5. If you have a family membership you may accumulate points in one of the following ways: all points are placed under the family name OR points are kept separately for each family member. This determination must be made at the first bowl show of the year.
6. Only members in good standing may enter fish.
7. The exhibitor must be present to enter fish in the show. Live and digital entries are accepted.
8. Dealers may enter "for display only" under the shop's name.

9. There will be three judges selected for each month by the chairperson. Judges cannot be related to Bowl Show participants. The judges will rank the fish by class (i.e. 1 - the best, 2 – 2nd best, etc.).
10. A member may enter the same fish or pair of fish as many times as desired, provided that the fish do not win a 1st, 2nd, or 3rd place award. In such cases, the exhibitor may not enter the same fish again until Super Bowl.
11. A member may enter fish in Fish of the Month class and Open class.
12. A small label must be attached to each entry giving the scientific name. The common name is desirable but optional.
13. Entries must in the possession of the owner for one month prior to the show.
14. Entries must be brought in for display by the start of the meeting (7:00 p.m.); no entries will be accepted after the judging begins.
15. In the event that a bowl show consists of more than one class, a fish can be entered in only one of the available classes.
16. The decision of the judges is FINAL. No diseased, malformed or mutilated fish will be judged. Two of the judges must agree to disqualify a fish.
17. Point awards:
 - First Place – 20 points
 - Second Place – 15 points
 - Third Place – 10 points
 - Participating – 1 point/class

Any individual showing a fish will be awarded 1 point per fish (maximum 2 points per show). For example, John Smith brings in two fish, one for the open class and one for the goldfish class. He receives 2 points for entering two

- fish. The goldfish takes second place for 15 points. His total for the show would be 17 points.
18. The Super Bowl Show is held in May. It consists of any entries that placed first, second or third during the show year. The top three entries receive ribbons. Entrants may bring up to three ribbon-winning fish to the Super Bowl Show.

ANNUAL AUCTION RULES **(Revised 2022)**

SELLER REGISTRATION. Obtain your seller's ID and auction form by emailing a request to cnyasannualauction@gmail.com.

List items consecutively on the auction form with no empty lines between items. The ID# on the form should correspond with the label on the item. Completed sheet(s) are to be taken to the registration table prior to the start of bidding. THERE IS A LIMIT OF 5 ON SIMILAR HARD GOODS (examples: heaters, pumps, filters, etc.) AND 5 BAGS PER SPECIE OF FISH OR PLANT. No exceptions!

We are using the "10 table" system so place your item on the table that corresponds with the last number of your item's ID. For example, on Table 1 place items 1,11,21, etc.; on Table 2 place items 2,12,22 etc. Items on Table 1 will be auctioned first, then items on Table 2. After items on Table 2 have been auctioned, the order that the remaining tables will be auctioned will be selected at random. No items can be renumbered or moved. Buyers who wish to have items auctioned earlier will pay a \$2 fee to "fast track" an item. Items brought in late will be auctioned off later in the afternoon.

Equipment: Label each item and mark any equipment that is not working properly or is not in its proper brand name box (e.g., a Supreme heater box contains a Supreme heater).

Livestock: Bag & label fish/plants properly in bags designed to hold fish, typically obtained from pet shops or from our meetings. Double bagging is recommended. Food storage bags or "Ziploc" bags will NOT be accepted. Fish labeled as a pair must be a male and a female. A **\$2 fee will be charged if any re-bagging is necessary.**

Payments to sellers: A check and a copy of your "Seller Sheet" will be mailed out within 5 business days. Members receive 75% of selling price; non-members 70%. At the end of the auction sellers may apply what they have purchased against what they have sold. If the individual buys more than he has sold, he will pay the difference at checkout. If the person is due money, the club will send a check by mail.

BUYER REGISTRATION is done the day of the auction. Buyers must preregister as there are NO cash transactions on the floor. Fill out the Buyer Registration Form and receive your buyer number and bidder sheet. This sheet is to be held up for each item where you are the high bidder. Any buyer that wishes to leave the auction and return later on must turn in his sheet and number and pay for any items purchased.

When returning, the buyer will need to re-register and obtain a new number.

Checking Out & Payments: Go to the cashier's table and obtain a computer printout of the items you purchased. The treasurer will accept checks from club members only, all others must pay in CASH.

Once the auctioneer starts selling items from the last table number pulled from the lottery, checking out will be suspended. After the last item is sold, 15 minutes will be allowed for the computer operators to enter the remaining tags before checking out is resumed.

Other:

- Club donations can be identified by an ID beginning with "C".
- Only auction workers may remove items from a table.
- Items are auctioned in \$1 increments or left to the discretion of the auctioneer.
- Items not picked up at the end of the auction become the property of the CNYAS.
- CNYAS is not responsible for equipment or livestock purchased at the auction. Any problems are to be resolved between the buyer and the seller.
- Computer operators will be keeping track of buyer ID numbers, items and prices.
- CNYAS will deny the sale of livestock that are prohibited by state or federal law.

BREEDER'S AWARD PROGRAM (BAP)

Updated December 2022

PURPOSES

- A. To recognize outstanding achievement in the breeding of aquarium fish.
- B. To encourage spawning of aquarium fish.
- C. To share knowledge of breeding techniques.
- D. To enable more members to participate in club activities.

ELIGIBILITY

All members are eligible for the Breeder's Award Program. If any member should not renew his/her membership, his/her points will be kept on the 'inactive' list until such time that they renew their membership again.

COMMITTEE

- A. The Breeder's Award Committee will consist of a Chairman and at least two additional appointed members.
- B. The duties of the Committee will consist of witnessing spawnings and fry as outlined below, maintaining an accurate record of the point standings, reporting these to the membership and obtaining and presenting awards.
- C. From time to time the Committee may feel that certain changes or modifications in the rules may be necessary. The Committee will adhere to the following procedure if changes are to be made to the current BAP. No changes or modifications will be retroactive:
 1. A date for the change or modification is chosen by the Committee.
 2. The proposed change, with the effective date, will be published in the club bulletin at least 3 months preceding the effective change.

AWARDS

BREEDER AWARD: 50 points

The aquarist must accumulate a total of 50 points, 20 from Class B and the remaining 30 from any class.

ADVANCED BREEDER: 100 points

The aquarist must accumulate a total of 100 points, in addition to completing the Breeder Award requirements an additional 50 points must be earned (30 from Class C or D, the remaining from any class).

EXPERT BREEDER: 200 points

The aquarist must accumulate a total of 200 points. Breeder's Award, Advanced Breeder plus 30 points must be earned from Class C or D.

MASTER BREEDER: 300 points

The aquarist must accumulate a total of 300 points. Expert Breeder requirements plus 30 points from any C or D not spawned for the Expert Breeder's level.

GRAND MASTER:

The aquarist must have completed the Master Status,

AND

must breed a total of 75 species (with the exception of snails), 2 of which are from the "Class D" list and 2 from the "Class E" list.

OR

must spawn a total of 75 species (excluding snails) including 2 from "Class D" while at the same time fill all 16 classes in the "Species Award" category.

SPECIES AWARD:

This separate award is based on the number of species spawned from the "Specialty Classification List." Any club member may participate in this achievement level as well as the regular BAP program. Points will still be awarded as per regular BAP rules. Any individual's verified spawnings from the Breeder's Award Program may be applied towards completing the requirements for this award. A separate plaque will be awarded for anyone completing a minimum of 11 of the 16 classes.

BREEDER OF THE YEAR AWARD:

Presented to the member who earns the most points in one award year. The award year runs from May 1 through April 30.

SPAWNING REQUIREMENTS

- A. **CLASS A:** An aquarist must spawn and raise at least 10 fry to 30 days of age or longer. Verification* must be made by any club member.
- B. **CLASS B:** An aquarist must spawn and raise at least 10 fry to 30 days of age. Verification* must be made by any member of the BAP Committee after the

fry are 30 days old either at the club meeting or at the aquarist's home.

- C. **CLASS C:** An aquarist must spawn and raise at least 10 fry to 30 days of age. Verification* must be made by any member of the BAP Committee and a summary of these conditions under which the fish spawned may be presented either orally at a meeting or in writing for publication in the club bulletin at the discretion of the BAP Committee.
 - D. **CLASS D:** Conditions of Class C apply. A summary of the breeding conditions must be presented either orally at a meeting or in written form for publication in the club bulletin. Also a member of the BAP Committee must witness the fry not more than one week after hatching and again when they are 30 days of age.
 - E. **CLASS E:** Conditions of Class D apply. Class E points are assigned per BAP Fish List; however, after 6/86 a talk or article is necessary to qualify for Grand Master Status.
- IT IS NOT NECESSARY TO HAVE FISH WITNESSED AT EXACTLY 30 DAYS OF AGE, BUT FISH MUST BE WITNESSED PRIOR TO 60 DAYS OF AGE.**
- ADDITIONAL CRITERIA**
- A. Thirty days old means 30 days after hatching of eggayers, 30 days after the fry are released in mouthbrooding species, and in the case of livebearers, 30 days after birth.

- B. Points are awarded only once for each SPECIES. No additional points will be granted for color varieties. In the case of Killies and other fish with recognized subspecies, at the discretion of the majority of the BAP Committee, an additional 5 points may be awarded.

In the event that a completed BAP form is submitted for points and the genus/species name is unknown, no points will be awarded at that time; however, the sheet will be kept on file and points will be awarded when a positive/correct identification can be made and verified.

Points are cumulative, carry over from year to year and once awarded cannot be rescinded.

- C. The fry must have been spawned by the breeder's own fish and he must be able to furnish the breeding pair upon request.
- D. Following the spawning, it is the breeder's responsibility to see that his/her points are recorded.
- E. Any fish not included in the point classification of fishes spawned will be assigned points by the BAP Committee upon request.
- F. In order to have his/her points recorded, the aquarist must submit a signed completed BAP Report Form. For "Class D" and "Class E" spawns, the requirements must be met prior to the awarding of points. The BAP Report Form can be found on the club's website. It is MANDATORY that the completed sheets be submitted to the

BAP chairman BEFORE points are to be awarded for any class.

- G. Any questions you may have as to the interpretation of the rules or any suggestions as to their improvements should be submitted to the BAP Chairman in writing.

Spawnings are subject to review by the BAP Committee and may be denied if deemed unacceptable. The committee has the right to refuse any spawn that may be questionable. Special rulings may be requested of the committee. Appeals from rulings may be referred to the Board of Directors and may be modified by a two-thirds majority.

- H. All spawnings are recorded and kept on file. The completed BAP forms are available upon request and may be referred to by any club member.
- I. If for some reason the 10 required fry are not obtained with the first spawn, additional spawns may be added to the first to make up 10 fry. All spawns require verification. Sheets should not be submitted for points until the total of 10 fry have been witnessed.
- J. Certificates will be awarded stating the breeder's name and fish spawned until the first level, "Breeder's Award", is achieved.
- K. Only members of the BAP Committee may verify a spawn, with the exception of Class A.
- L. If a person is no longer a member, that person's BAP status becomes inactive. If the person becomes a member again,

he/she will be reinstated to the program at the previous level of achievement.

- M. Witnessing may occur digitally by the participant submitting a photo or video of fry and parents along with the completed BAP form to the entire committee.

GENERAL GUIDE TO FISH CLASSIFICATION

This index should be used as a guide only. An "*" indicates that a genus/family may be listed in two areas. In these cases, check for specific species.

CLASS A

5 Points

Poecilia ; Xiphophorus; All Snails

CLASS B

10 points

*Characins (except tetras)

*Cichlids: *Aequidens*, some *Cichlasoma*, some *Geophagus*, *Haplochromis*, *Hemichromis*, *Nanochromis*, *Pelmatochromis*, *Pelvicachromis*, *Pseudocrenilabrus*, *Tilapia* species except *Sarotherodon*, species not listed elsewhere

**Colisa*

*Cyprinids (e.g., Danios, Barbs, etc.)

Goodeidae

Goldfish

*Killies - most mop-spawning species

*Rainbowfish: *Glossolepis*, *Melanotaenia*, species not listed elsewhere

**Trichogaster*

CLASS C

15 points

Badis badis

Bettas, all wild types

*Characins (e.g., tetras)

*Cichlids: *Aistogramma*, *Aulonocara*, *Chromides*, *Callochromis*, *Chalinochromis*, some

Cichlasoma, some *Geophagus*, *Julidochromis*, *Labidochromis*, *Labeotropheus*, (*Alto/Lepidio/Neo*)*lamprologus*, *Lethrinops*, *Melanochromis*, *Microgeophagus*, *Pseudotropheus*, *Rhadinocentrus*, *Telmatochromis*, *Tropheus*

**Colisa*

**Corydoras*

*Cyprinids (except: Danios, Barbs, Minnows, etc.)

*Halfbeaks (*Dermogenys* sp.)

Killies, all soilbreeding and some *mop spawning North American Native Fish unless otherwise listed

*Rainbowfish

**Trichogaster*

Trichopsis

CLASS D

20 points

(see list for specific species)

**Corydoras*

*Cichlids: *Crenicara*, *Crenicichla*

*Half Beaks (*Nomorhamphus* sp.)

Rasboras

Hatchetfishes, Silver Dollars, and Piranhas

Leaf Fish

Sharks, Loaches, Botias, Eels

Congo, Neon, Black Neon, and Cardinal tetras

Saltwater fish species

Hoplo, Whiptail, Suckermouth catfish

Uaru

CLASS E

Applies to Grand Master status ONLY
see attached list

CLASS A

5 points

5	<i>Ampularia cuprina</i> - Mystery Snail	10	<i>Aequidens portalegrensis</i> => see <i>Cichlasoma</i>
5	<i>Columbian Ramshorn Snail</i>	10	<i>Aequidens pulcher</i> - Blue Acara
5	<i>Marisa rotula</i> - Red Ramshorn Snail	10	<i>Aequidens rivulatus</i> - Green Terror
5	<i>Physa</i> (pond snail)	10	<i>Aequidens sapayensis</i>
5	<i>Poecilia butleri</i>	10	<i>Aidaprura carteri</i>
5	<i>Poecilia caucana</i>	10	<i>Alfaro cultratus</i> - Knife-bellied livebearer
5	<i>Poecilia caudofasciata</i> - Blue Limia	10	<i>Ameca splendens</i> - Butterfly Goodeid
5	<i>Poecilia chica</i>	10	<i>Anomalochromis thomasi</i> - Dwarf Jewel Cichlid
5	<i>Poecilia formosa</i> - Amazon Molly	10	<i>Aphanius chantrei sosayali</i>
5	<i>Poecilia latipinna</i> - Sailfin Molly	10	<i>Aphanius iberus</i> - Spanish Killie
5	<i>Poecilia melanogaster</i> - Blue Limia	10	<i>Aphanius mento</i> - Persian Killie
5	<i>Poecilia mexicana</i> - Sphenops Molly	10	<i>Aphanius sophiae</i>
5	<i>Poecilia nigrofasciata</i> - Hump Back Limia	10	<i>Aphyocharax rubripinnis</i> - Bloodfin
5	<i>Poecilia perugiae</i>	10	<i>Aphyosemion ahli</i>
5	<i>Poecilia picta</i>	10	<i>Aphyosemion ahli kribbi</i>
5	<i>Poecilia reticulata</i> - Guppy	10	<i>Aphyosemion bitaeniatum</i>
5	<i>Poecilia</i> sp. Endlers	10	<i>Aphyosemion bitaeniatum ljebu-ode</i>
5	<i>Poecilia sphenops</i>	10	<i>Aphyosemion bitaeniatum</i>
5	<i>Poecilia velifera</i> - Giant Sailfin Molly	10	"Benin City"
5	<i>Poecilia versicolor</i> - Olive Limia	10	<i>Aphyosemion bivittatum</i>
5	<i>Poecilia vittata</i>	10	<i>Aphyosemion bivittatum bivittatum</i>
5	<i>Sarotherodon leucasticta</i>	10	<i>Aphyosemion bivittatum bivittatum Funge</i>
5	<i>Sarotherodon macrochir</i>	10	<i>Aphyosemion bivittatum holly biafra</i>
5	<i>Sarotherodon melanotheron</i>	10	<i>Aphyosemion bivittatum leonbergii</i>
5	<i>Sarotherodon mossambicus</i> - Gold Tilapia	10	<i>Aphyosemion bivittatum Lykoko</i>
5	<i>Tilapia</i> => see Sarotherodon	10	<i>Aphyosemion bivittatum meme</i>
5	Vivipara species - Live bearer Snail	10	<i>Aphyosemion bivittatum volcanum</i>
5	<i>Xiphophorus andersi</i>	10	<i>Aphyosemion calliurum</i>
5	<i>Xiphophorus cordoni</i>	10	<i>Aphyosemion cameronense halleri</i>
5	<i>Xiphophorus cortezii</i>	10	<i>Aphyosemion celiae</i>
5	<i>Xiphophorus couchianus</i>	10	<i>Aphyosemion celiae celiae</i>
5	<i>Xiphophorus evelynae</i> - Puebla Platy	10	<i>Aphyosemion celiae winifredae</i>
5	<i>Xiphophorus gordoni</i>	10	<i>Aphyosemion coeleste</i>
5	<i>Xiphophorus helleri</i> - Swordtail (all colors)	10	<i>Aphyosemion coeleste RPC-5</i>
5	<i>Xiphophorus maculatus</i> - Platy (all varieties)	10	<i>Aphyosemion gabunense</i>
5	<i>Xiphophorus milleri</i>	10	<i>Aphyosemion gabunense boehmi</i>
5	<i>Xiphophorus montezuma</i> - Mexican Sword	10	<i>Aphyosemion gabunense gabuenense</i>
5	<i>Xiphophorus nezahualcoyotl</i>	10	<i>Aphyosemion gabunense marginatum</i>
5	<i>Xiphophorus nigrensis</i>	10	<i>Aphyosemion gardneri</i> => see <i>Fundulopanchax</i>
5	<i>Xiphophorus pygmaeus</i>	10	<i>Aphyosemion maeseni</i>
5	<i>Xiphophorus signum</i>	10	<i>Aphyosemion marmoratum</i>
5	<i>Xiphophorus variatus</i> - Variatus Platy	10	<i>Aphyosemion poliaki</i>
5	<i>Xiphophorus xiphidium</i> - Swordtail Platy	10	<i>Aphyosemion poliaki monea</i>
		10	<i>Aphyosemion scheeli</i>
		10	<i>Aphyosemion splendopleure Ekondo Titi</i>
		10	<i>Aphyosemion splendopleure tiko</i>
		10	<i>Aphyosemion striatum</i>
		10	<i>Aphyosemion volcanum ekondo titi</i>
		10	<i>Aplocheilichthys katange</i>
		10	<i>Aplocheilichthys loati</i>
		10	<i>Aplocheilichthys normani</i>
		10	<i>Aplocheilus dayii</i>
		10	<i>Aplocheilus lineatus</i>
		10	<i>Aplocheilus panchax</i>
		10	<i>Apolcheilichthys myaposae</i>
		10	<i>Astyanax fasciatus mexicanus</i> - Blind Cave Fish
		10	<i>Ataeniobius toweri</i> - Blue Tailed Goodeid
		10	<i>Barbodes hexazona</i> - Six Banded Barb
		10	<i>Barbodes lateristriga</i> - T Barb

CLASS B

10 points

10	<i>Adinia xenica</i> [native fish]	10	
10	<i>Aequidens awani</i>	10	
10	<i>Aequidens</i> cf. <i>tetramerus</i>	10	
10	<i>Aequidens coeruleopunctatus</i>	10	
10	<i>Aequidens curviceps</i> => see <i>Leatacara</i>	10	
10	<i>Aequidens maroni</i> - Keyhole Cichlid	10	

10	<i>Barbus nigrofasciatus</i>	10	<i>Danio aequipinnatus</i>
10	<i>Bedotia geayi</i> - Madagascar Rainbow	10	<i>Danio malabaricus</i> - Giant Danio
10	<i>Betta splendens</i>	10	<i>Epiplatys ansorgii singua</i>
10	<i>Brachydanio albolineatus</i> - Pearl Danio	10	<i>Epiplatys bifasciatus</i> "Dubreka Guinea Solumba River"
10	<i>Brachydanio frankei</i> - Leopard Danio	10	<i>Epiplatys chaperi</i>
10	<i>Brachydanio kerri</i>	10	<i>Epiplatys chaperi chaperi</i>
10	<i>Brachydanio nigrofasciatus</i>	10	<i>Epiplatys dageti</i>
10	<i>Brachydanio rerio</i> - Zebra Danio	10	<i>Epiplatys dageti monroviae</i>
10	<i>Brachyrhaphis rhabdophora</i>	10	<i>Epiplatys huberi</i>
10	<i>Brachyrhaphis rosei</i>	10	<i>Epiplatys sexfasciatus</i>
10	<i>Capoeta oligolepis</i> - Checkerboard Barb	10	<i>Epiplatys sexfasciatus sexfasciatus</i> Rathkei
10	<i>Capoeta pentazona</i> - Five Banded Barb	10	<i>Epiplatys zimiensis</i>
10	<i>Capoeta semifasciolatus</i>	10	<i>Fundulopanchax gardneri</i>
10	<i>Capoeta tetrazona</i> - Tiger Barb	10	<i>Fundulopanchax gardneri akure</i>
10	<i>Capoeta titteya</i> - Cherry Barb	10	<i>Fundulopanchax gardneri clauseni</i> Akampa
10	<i>Carassius auratus</i> - Goldfish	10	<i>Fundulopanchax gardneri mamensis</i>
10	<i>Carlhubbsia stuarti</i>	10	<i>Fundulopanchax gardneri nigerianus</i>
10	<i>Chapalichthys pardalis</i> - Polkadot Goodeid	10	<i>Fundulopanchax gardneri nigerianus Jiker</i>
10	<i>Characodon lateralis</i> - Red Rainbow Goodeid	10	<i>Fundulopanchax gardneri nigerianus Jos Plateau</i>
10	<i>Cichlasoma amazonarum</i>	10	<i>Fundulopanchax gardneri nigerianus Lafia</i>
10	<i>Cichlasoma aureum</i>	10	<i>Fundulopanchax gardneri nigerianus Misage</i>
10	<i>Cichlasoma bimaculatus</i>	10	<i>Fundulopanchax gardneri n'sukka</i>
10	<i>Cichlasoma biocellatus</i> => see <i>C. octofasciatus</i>	10	<i>Fundulus confluentus</i> - Marsh Killie [native]
10	<i>Cichlasoma brownae</i>	10	<i>Fundulus heteroclitus</i>
10	<i>Cichlasoma carpinis</i>	10	<i>Gambusia affinis</i> - Mosquito Fish [native fish]
10	<i>Cichlasoma centrarchus</i>	10	<i>Gambusia sexradiata</i>
10	<i>Cichlasoma cf. septemfasciatus</i>	10	<i>Gambusia xanthosoma</i>
10	<i>Cichlasoma cutteri</i>	10	<i>Geophagus brasiliensis</i> - Pearl Cichlid
10	<i>Cichlasoma cyanoguttatus</i> - Texas Cichlid	10	<i>Geophagus steindachneri</i>
[native]		10	<i>Girardinus metallicus</i>
10	<i>Cichlasoma dimerus</i>	10	<i>Glossolepis fasciata</i>
10	<i>Cichlasoma facetus</i>	10	<i>Glossolepis incisus</i> - New Guinea Red Rainbow
10	<i>Cichlasoma festivus</i> => see <i>Mesonautus</i>	10	<i>Glossolepis ramuensis</i>
10	<i>Cichlasoma managuense</i> - Jaguar Cichlid	10	<i>Goodea atripinnis</i>

CLASS D

20 points

20	<i>Abramites microcephalus</i> - Marbled Headstander
20	<i>Acanthopthalmus kuhlii</i> - Kuhli Loach
20	<i>Acanthopthalmus semicinctus</i>
20	<i>Ambystoma mexicanum</i> - Axolotl Salamander
20	<i>Anableps anableps</i> - Four Eyes
20	<i>Ancistrus dolichopterus</i>
20	<i>Ancistrus triradiatus</i>
20	<i>Astronotus ocellatus</i> - Oscar
20	<i>Belonesox belizanus</i> - Pike Livebearer
20	<i>Botia macracantha</i> - Clown Loach
20	<i>Bunocephalus coracoideus</i> - Banjo Catfish
20	<i>Carneigilla strigata</i> - Marble Hatchet
20	<i>Cheirodon axelrodi</i> - Cardinal Tetra
20	<i>Corydoras habrosus</i>
20	<i>Corydoras hastatus</i>
20	<i>Corydoras pygmaeus</i>
20	<i>Crenicara</i> sp.
20	<i>Crenichthys</i> sp.
20	<i>Culeau inconstans</i>
20	<i>Farlowella acus</i>
20	<i>Hoplosternum thoracatum</i>
20	<i>Hyphessobrycon herbertaxelrodi</i> - Black neon
20	<i>Hyphessobrycon innesi</i> => see <i>Paracheirodon</i>
20	<i>Labeo bicolor</i> - Red-tailed Black shark
20	<i>Lepomis gibbosus</i>
20	<i>Monodactylus argenteus</i> - Mono
20	<i>Nomorhamphus celebensis</i>
20	<i>Nomorhamphus liemi</i>
20	<i>Pantanodon podoxy</i>

CLASS E

Applies to Grand Master Status Only

1) Saltwater or Brackish	1 distinct fish species
2) Shark, Loach, Botia, Eel	1 distinct species
3) Invertebrates	4 distinct species other than snails
4) Tetras	1 from <i>Hyphessobrycon</i> species
5) Silver Dollar or Piranha	1 distinct species
6) Gouramis <i>osphromenoides</i>	<i>Helostoma temmincki</i> or <i>Sphaerichthys</i>
7) Rasboras	1 distinct species
8) Leaf Fish	1 distinct species
9) Anableps anableps	
10) Stickleback	1 distinct species
11) Headstander	1 distinct species
12) Glass Catfish	1 distinct species
13) Hatchet Fish	1 distinct species

SPECIALTY CLASS

If a fish falls into more than one category, the participant must select the category in which he wishes to record the spawn. This decision is final and may not be reclassified at a later date.

1) Livebearers <i>Poecilia</i> or <i>Xiphophorus</i>)	6 (2 species must be other than
2) Anabantids (Other than Bettas)	4 distinct species
3) Bettas	2 distinct species
4) Barbs	3 distinct species
5) Rasboras	1 distinct species
6) Tetras	3 distinct species
7) Cichlids-Mouthbrooding	2 distinct species
8) Cichlids-Substrate Spawners	5 distinct species
9) Killies-Mop Spawners	2 distinct species
10) Killies-Peat Spawners	2 distinct species
11) Catfish (Other than <i>Corydoras</i> , etc.)	1 distinct species
12) <i>Corydoras</i> , <i>Brochis</i> , <i>Aspidoras</i> etc.	2 distinct species
13) Cyprinids (Other than those listed elsewhere)	4 distinct species
14) Goldfish & Koi	1 distinct species
15) Native American Fish	2 distinct species
16) Other	1 distinct species

INVERTEBRATES

(Investigational Class)

The following species have been reproduced by our club members:

Marine Species

Aiptasia pallida – Pale sea anemone
Clavelina huntsman – Sea Squirt
Eurythoe complanata – Bristle worm
Hallocynthia papillosa – Sea Squirt
Neomysis americana – Saltwater shrimp
Obelia geniculata – Wine Glass Hydroid
Sabellastarte magnifica – Feather Worm
Thelepus crispus – Terebellid Worm

Freshwater Species

Palaemonetes elegans – Ghost Shrimp

Note: At the November 1987 executive Board meeting, the BAP Committee and BOD members discussed and approved the separation of invertebrate species from our current BAP program. The primary reason for this was due the two different modes of reproduction (sexual vs asexual). It was additionally agreed upon that a new separate category, similar to the Specialty Award Class, would be established. In this way those who choose to devote the time to invertebrate reproduction could do so and achieve recognition for their efforts. This new class is presently under investigation.

For the few people who have already received credit for invertebrate reproductions, their points will remain. When the new invertebrate class is established, the club members who have received points will have the opportunity to leave their points where they currently are or have them transferred to the new class.

If you have any invertebrates that reproduce, fill out a BAP form as you would for a fish species, have the invert witnessed, and give your signed form to the BAP Chairperson. These sheets will be kept on file until such time that the new class is established.

AQUATIC HORTICULTURE AWARD PROGRAM (AHAP)

(Revised 7/2008)

PURPOSES

- A. To recognize outstanding achievement in growing and propagating aquatic plants.
- B. To gather information and knowledge of aquatic plants and their requirements with the additional bonus of having more beautiful aquariums and inhabitants.
- C. To identify new aquatic plant species and conditions required for their care in the aquarium.
- D. To establish a record of aquatic plant species and conditions required for their maintenance, which will be available to all members.

ELIGIBILITY

All members are eligible for the Aquatic Horticulture Award Program. If a member does not renew his/her membership, their points will be kept on the "inactive" list until such time that they renew their membership.

COMMITTEE

- A. The AHAP Committee will consist of a Chairman and at least 2 additional appointed members.
- B. The duties of the committee shall consist of witnessing the propagation of aquatic plants as outlined, maintaining an accurate record of the points

standing, reporting these to the membership and obtaining/presenting awards.

AWARDS

BEGINNING AQUATIC

HORTICULTURALIST: 50 Points

Aquarist must accumulate a total of 50 points.

AQUATIC HORTICULTURALIST: 100

Points

Aquarist must accumulate a total of 100 points. In addition to completing the Beginning requirements, an additional 50 points must be earned.

SENIOR AQUATIC

HORTICULTURALIST: 150 Points

Aquarist must accumulate a total of 150 points. Aquatic Horticulturist plus 2 species from Group C, and 2 from Group D, and propagate 20 species total.

EXPERT AQUATIC

HORTICULTURALIST: 200 Points

Aquarist must accumulate a total of 200 points. Senior Aquatic Horticulturist plus 1 species from Group E and propagate 28 species total.

MASTER AQUATIC

HORTICULTURALIST: 300 Points

Aquarist must accumulate a total of 300 points. Expert Aquatic Horticulturist plus an additional species from Group E and a total of 35 species propagated.

GRAND MASTER HORTICULTURALIST:

450 Points

Aquarist must accumulate a total of 450 points. Master Aquatic Horticulturist plus an additional species from Group E, 1 species from Group F, and a total of 55 species propagated.

SPECIES AWARD:

Given to participating AHAP members who complete 11 of the 14 species classes.

GREEN THUMB AWARD:

Presented to the member who earns the most points in one award year. The award year runs from May 1 through April 30.

REPRODUCTION REQUIREMENTS

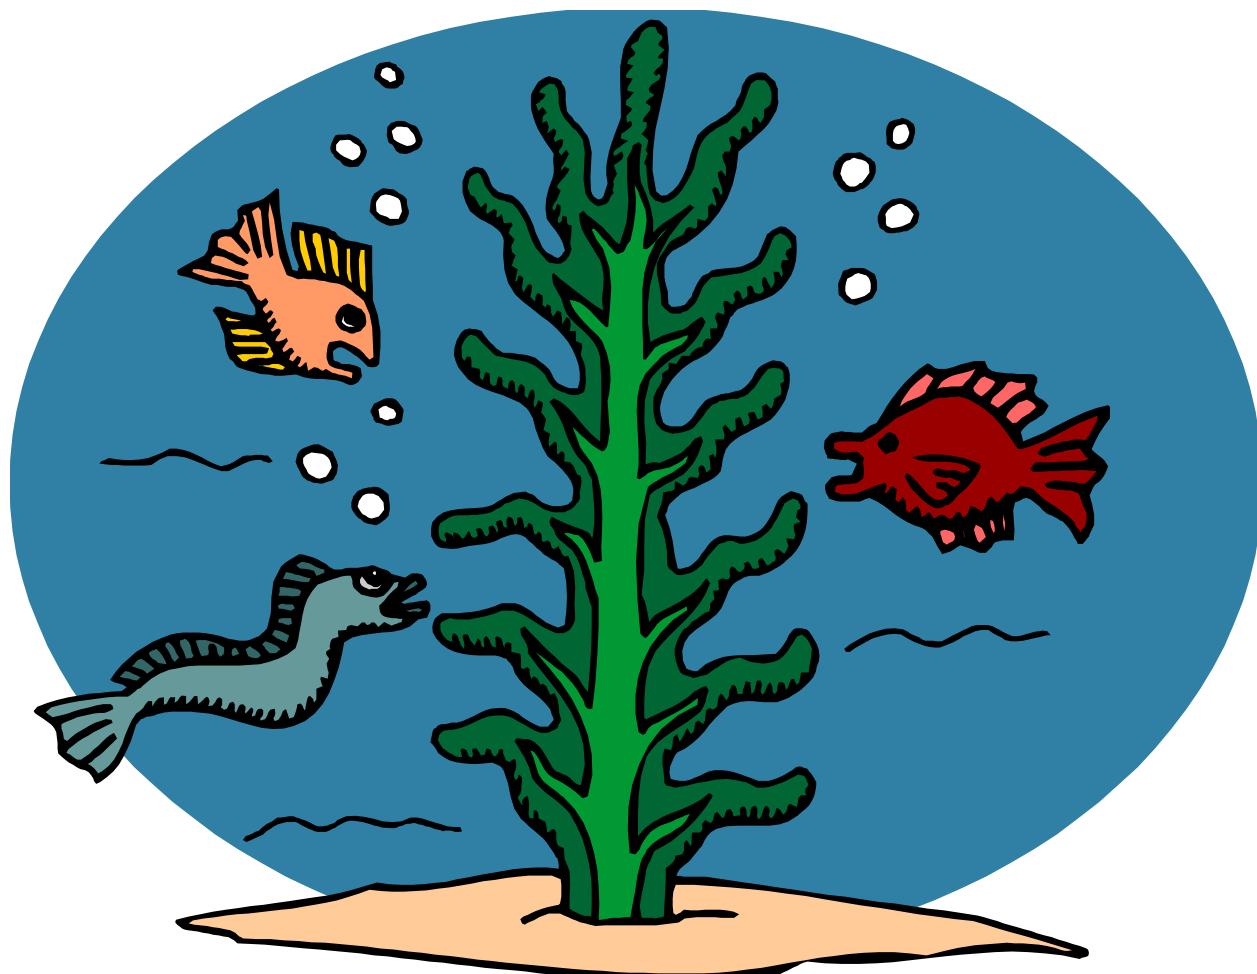

1. For all species, verification and registration of propagation in Groups A through E may be verified by a member of the AHAP Committee in the active member's residence.
2. Floating plants. Doubling of the original amount/area.
3. Bunch plants. Doubling of the original plant in height.
4. Reproduction by runner or division. Reproduction is achieved when a newly formed plant is grown in aquarist's tank from a runner or rhizome that was grown in the aquarist's tank. The newly formed plant must live independently from the parent plant for 30 days while the parent plant is still alive and in good health.

5. Rhizome plants (Anubias). Plants must double in length.
6. Flowering. Must be witnessed when in full bloom, attached to the plant, in the member's aquarium/pond.
7. Reproduction sexually (from seed). One plant reproduced by sexual means from an aquarist's own parent plant. Seeds and reproduced plants must be from the member's own parent plant, not from a supplier or breeder. The Chairman of the AHAP Committee witnesses new plant 30 days after developing into a miniature plant. The reproduction must be verified at least twice; once when flowering and once when the young plants are old enough to be recognized as being the young of the parent plant.

ADDITIONAL CRITERIA

1. Plants reproduced must conform with the following definition of an aquatic plant: "An aquatic plant is one which, in the wild or native state, can be grown in the submerged state as a normal occurrence at some time during the course of any one complete season."
2. Plants must be identified by the aquarist and verification made by the AHAP Committee. A good book for identification is *Aquarium Plants: The Practical Guide* by Pablo Tepoot or *Aquarium Plants* by Dr. Rataj & Thomas Horeman.
3. In order to have his/her points recorded, the aquarist must submit a completed, witnessed Report Form. A club member may review the forms on file from the Chairman who will make them available at all club meetings.
4. For Groups E and F the aquarist must write an article for publication in the club bulletin or orally at a meeting.

5. The propagation must take place in the aquarist's own tank.
6. Any plant not included in the point grouping will be assigned points by the AHAP Committee upon request.
7. Any questions you may have as to the interpretation of the rules or any suggestions as to their improvements should be submitted to the AHAP Chairman.
8. All propagations are recorded and kept on file.
9. It is MANDATORY that completed sheets be submitted to the AHAP chairman BEFORE points are to be awarded for any group.

The following is a list of species by point group.
This is not complete and is intended to be used only as a guide.

GROUP A

5 Points or counts as one species

Azolla species (floating fern)
Ceratopteris species
Ceratophyllum species
Elodea species
Hydrophilia species (except *H. difformis*)
Lemna species
Riccia species
Sagittaria species
Salvinia species
Vallisneria species

GROUP B

10 Points or counts as one species

Bacopa species
Cabomba species
Cardamine species
Echinodorus tenellus only
Eleocharis species
Fontinalis species
Hydrocotyle species (pennywort)
Hydrophila difformis (water wisteria)
Limnophila species (ambulia)
Lobelia species
Ludwigia species
Myriophyllum species
Najas species (pondweed)
Nitella species
Normophilia species (temple plant)
Nuphar species except Spatterdock
Nymphaea chromatella
Rotala species
Utricularia species
Vesicularia dubyana (java moss)

GROUP C

15 Points or counts as 1 species

Aponogeton species (except Madagascar Lace)
Cryptocoryne species
Didiplis diandra (water hedge)
Echinodorus species (except Pygmy Chain Sword)
Eichhornia crassipes (water hyacinth)

Isoetes species

Marsilea species

Microsorium pteropus (java fern)

Pistia species

Trapa natans (water chestnut)

GROUP D

20 Points or counts as 1 species

Aldrovanda species
Anubias species
Any marine plant
Aponogeton madagascariensis
Lagenandra species
Nuphar luteum
Ottelia alismoides

GROUP E

FLOWERING

Additional points for flowering will be the same as the propagation of the plant: e.g., *Cabomba* - 10 points, *Echinodorus* - 15 points

GROUP F

SEXUALLY REPRODUCING PLANTS

Extra points as for the species group as outlined in Group E above.

WRITER'S AWARD PROGRAM (WAP)

(Revised December 2022)

PURPOSES

- A. To encourage the writing of articles for *The Reflector* and the development of writing skills by CNYAS members.
- B. To acknowledge the accomplishment of CNYAS members contributions to the hobby through their writing and artistic efforts.
- C. To encourage a spirit of competition for the annual "Scaly Eraser Award."
- D. To increase information about the tropical fish hobby to CNYAS members.

ELIGIBILITY

Participation is open to all CNYAS members. Articles by non-members will not qualify retroactively upon joining CNYAS. Articles required by CNYAS officers and committee chairs are not eligible.

COMMITTEE

- A. The Writer's Award Program Committee shall consist of a chairperson and up to two (2) members. The Exchange Editor must be a member of the committee and may be the chairperson.
- B. The duties of the committee are:
 1. Maintain records of the points earned by all participants;
 2. Provide a report each month of the current standings, to *The Reflector* Editor, by the editor's deadline date.

AWARDS

- A. The Scaly Eraser Award will be given to the CNYAS member who accumulates the highest number of points, as described in the points accumulation rules, for original articles and/or artwork published in *The Reflector* from May of one year through April of the next. Points for this award will include bonus points earned for previously published articles earned during the same time frame. This award shall be a plaque. Points must include at least one original article (i.e., not just mentions or reprints). If there are not at least two writers participating, the award will be given at the discretion of the Committee.
- B. Accumulated Points Awards shall consist of a plaque with the CNYAS Logo and four plates for inscribed levels achieved:

WRITER'S AWARD:

Participants must accumulate 50 points, at least 30 of which are from the basic point rules.

AUTHOR'S AWARD:

Participants must achieve the Writer's Award level and accumulate 100 points, at least 60 of which are from the basic point rules.

WORDSMITH AWARD:

Participants must achieve the Author's Award and accumulate 200 points, at least 120 of which are from the basic point rules.

PEN & QUILL AWARD:

Participants must achieve the Wordsmith Award and accumulate 400 points, at least 240 of which are from the basic point rules. To complete the requirements needed to earn this level, ONE of the following conditions must be met AFTER 400 points have been achieved.

1. Participants must have at least (2) articles reprinted in another club's publication.
2. Participants must have (1) article reprinted in another club's publication and 2 articles printed in *The Reflector*.
3. Participants must have (4) articles printed in *The Reflector*. These must be articles, not committee reports, pictures, etc.

PROFESSIONAL AWARD

This separate award requires that the participant achieves at least the Wordsmith Award Level and have a previously unpublished article published in a national or international, for-profit publication. It shall consist of a plate that hangs from the bottom of the basic awards plaque.

POINTS ACCUMULATION

- A. Points will be awarded based on the following schedule for articles first published in *The Reflector*, from May of one year through April of the following year.

- B. All point awards are at the sole discretion of the committee.
- C. Articles and/or artwork not published within the time frame, for any reason, will be included in the year's competition in which they occur.
- D. Co-authored articles will have the points split evenly.
- E. If any member should not renew his/her membership, accumulated points will be kept on an inactive list until such time as membership is renewed.

BASIC POINTS

- 10 Required BAP or HAP articles.
- 10 Short articles (less than 50 words) such as Tips, etc.
- 20 Not required articles on any hobby-related subject, including letters to the editor, of more than 50 words.
- 20 Original hand-drawn artwork of fish or plants.
- 10 Other original drawings or cartoons, hand-drawn, or computer assisted.

BONUS POINTS

For reprinted items appearing in publications that the Exchange Editor does not receive, it will be the responsibility of the author to provide proof to the committee by May 1 of the contest year.

- 20 A continuing column of six or more editions within the time frame of the contest. Awarded upon publication of the sixth (6th) edition each year that the column is written.
- 10 Articles reprinted in another club's publication (each reprinting).

- 6 Articles reviewed in another club's "Exchanges Column", each review.
 - 10 Any artwork reprinted in another club's publication (each reprinting).
 - 10 Articles mentioned or reviewed in a "for-profit" hobby publication.
 - 30 Articles reprinted (with permission of the author) in a "for profit" hobby publication. These may be edited by the publication or the author but must be substantially the same. These points will be awarded only if the CNYAS and *The Reflector* are credited.
- 5 Original photos submitted with an article. Each original photo submitted earns five points.
- Articles receiving awards in hobby publication award programs will be awarded bonus points based on the following schedule:
- 50 Article/Author of the Year
 - 40 First place in category
 - 30 Second place in category
 - 20 Third place in category
 - 10 Fourth place in category or honorable mention.
